

RS-EL

Description:

Acoustic door designed with a special frame and sheet fully integrated and made flush, that lend to the door a decorative and elegant appearance. 90° Opening.

The hinges are hidden inside and totally invisibles.

Thanks to the special guillotine lock, very good acoustic performance are achieved.

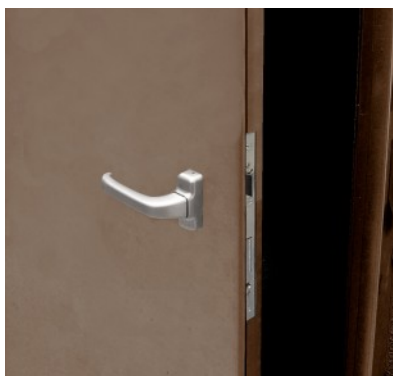

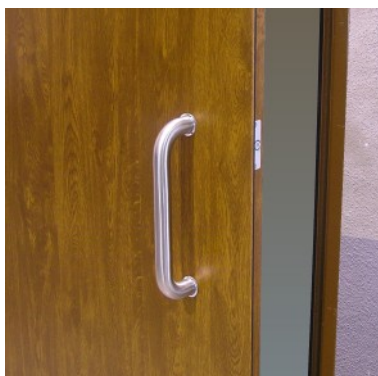

Advantages:

- New design wich has broken with the conception of the classic acoustic doors.
- Possibility of finishes in colors or wood imitation.

Characteristics:

CM type: Magnetic lock.

CR type: Latch lock.

Accesories on request:

Lower frame: optional depending on the required insulation.
Acoustic viewports, locks, door closers.

Finishes:

Wood imitation or range of colors (on request).

Standard dimensions:

With lower frame the inside dim. are reduced in height 40mm.

One sheet (width x height mm.)		
Model	Interior Dim.	Exterior Dim.
RS-EL/01	800 x 2000	960 x 2080
RS-EL/02	900 x 2000	1060 x 2080
RS-EL03	1000 x 2000	1160 x 2080

Acoustic characteristics:

There are two levels of acoustic insulation, depending on the lower frame and lock:

- RS-EL/CM without frame - $R_w = 43$ dB.
- RS-EL/CM with frame - $R_w = 48$ dB.
- RS-EL/CR without frame - $R_w = 44$ dB.
- RS-EL/CR with frame - $R_w = 51$ dB.
